ECSTAR

GENUINE OIL & CHEMICAL

2021

For MCS source Distributors

What is ECSTAR?

In the 1980's , Suzuki started the development of lubricants in pursuit of ultimate performance. The lubricant is named "ECSTAR" as it is our guiding "Star" towards an "Ecstatic" performance. As the expectation towards our products evolves, the same attention to performance is required for durability and environmental protection. With the high technology cultivated through its long history and dedicated engineering, Suzuki has precisely re-formulated "ECSTAR" to satisfy and exceed these requirements.

In 2015, ECSTAR has been started as the global brand name of Suzuki Genuine Oil & Chemical.

By enchancing and drawing out the best performance, "ECSTAR" will give you a Suzuki experience that others could not.

ADVANTAGE OF ECSTAR

FUEL SAVINGS
The Genuine formulation provide the high performance and help to improve fuel economy.

ENGINE PROTECTION
The innovative lubricating technology achieves the thermal stability, which contribute to the ultimate engine protection even when starting engine in cold climates.

CLEAN ENGINE
Cleaning performance helps to prolong the engine life.

ECSTAR V7000

Suzuki engineers have created a premium oil that has not only exceeded all standards set by the NMMA but more importantly has been designed specifically for Suzuki marine engines. ECSTAR is FC-W certified and uses a high quality low sulfur content based oil that reduces ash buildup for increased durability and the high viscosity index is a major contributor to maximising fuel efficiency.

V7000 SEMI SYNTHETIC

High performance blend of synthetic lubricants and premium mineral oils engineered to protect your Suzuki engine and optimise its performance.

- Less engine water
- Lower oil consumption
- Improved starting
- Reduced fuel consumption
